

James Elkins / the domain of images

gramma / graphein / gerebh

domain of images

as a whole

domain of grammae

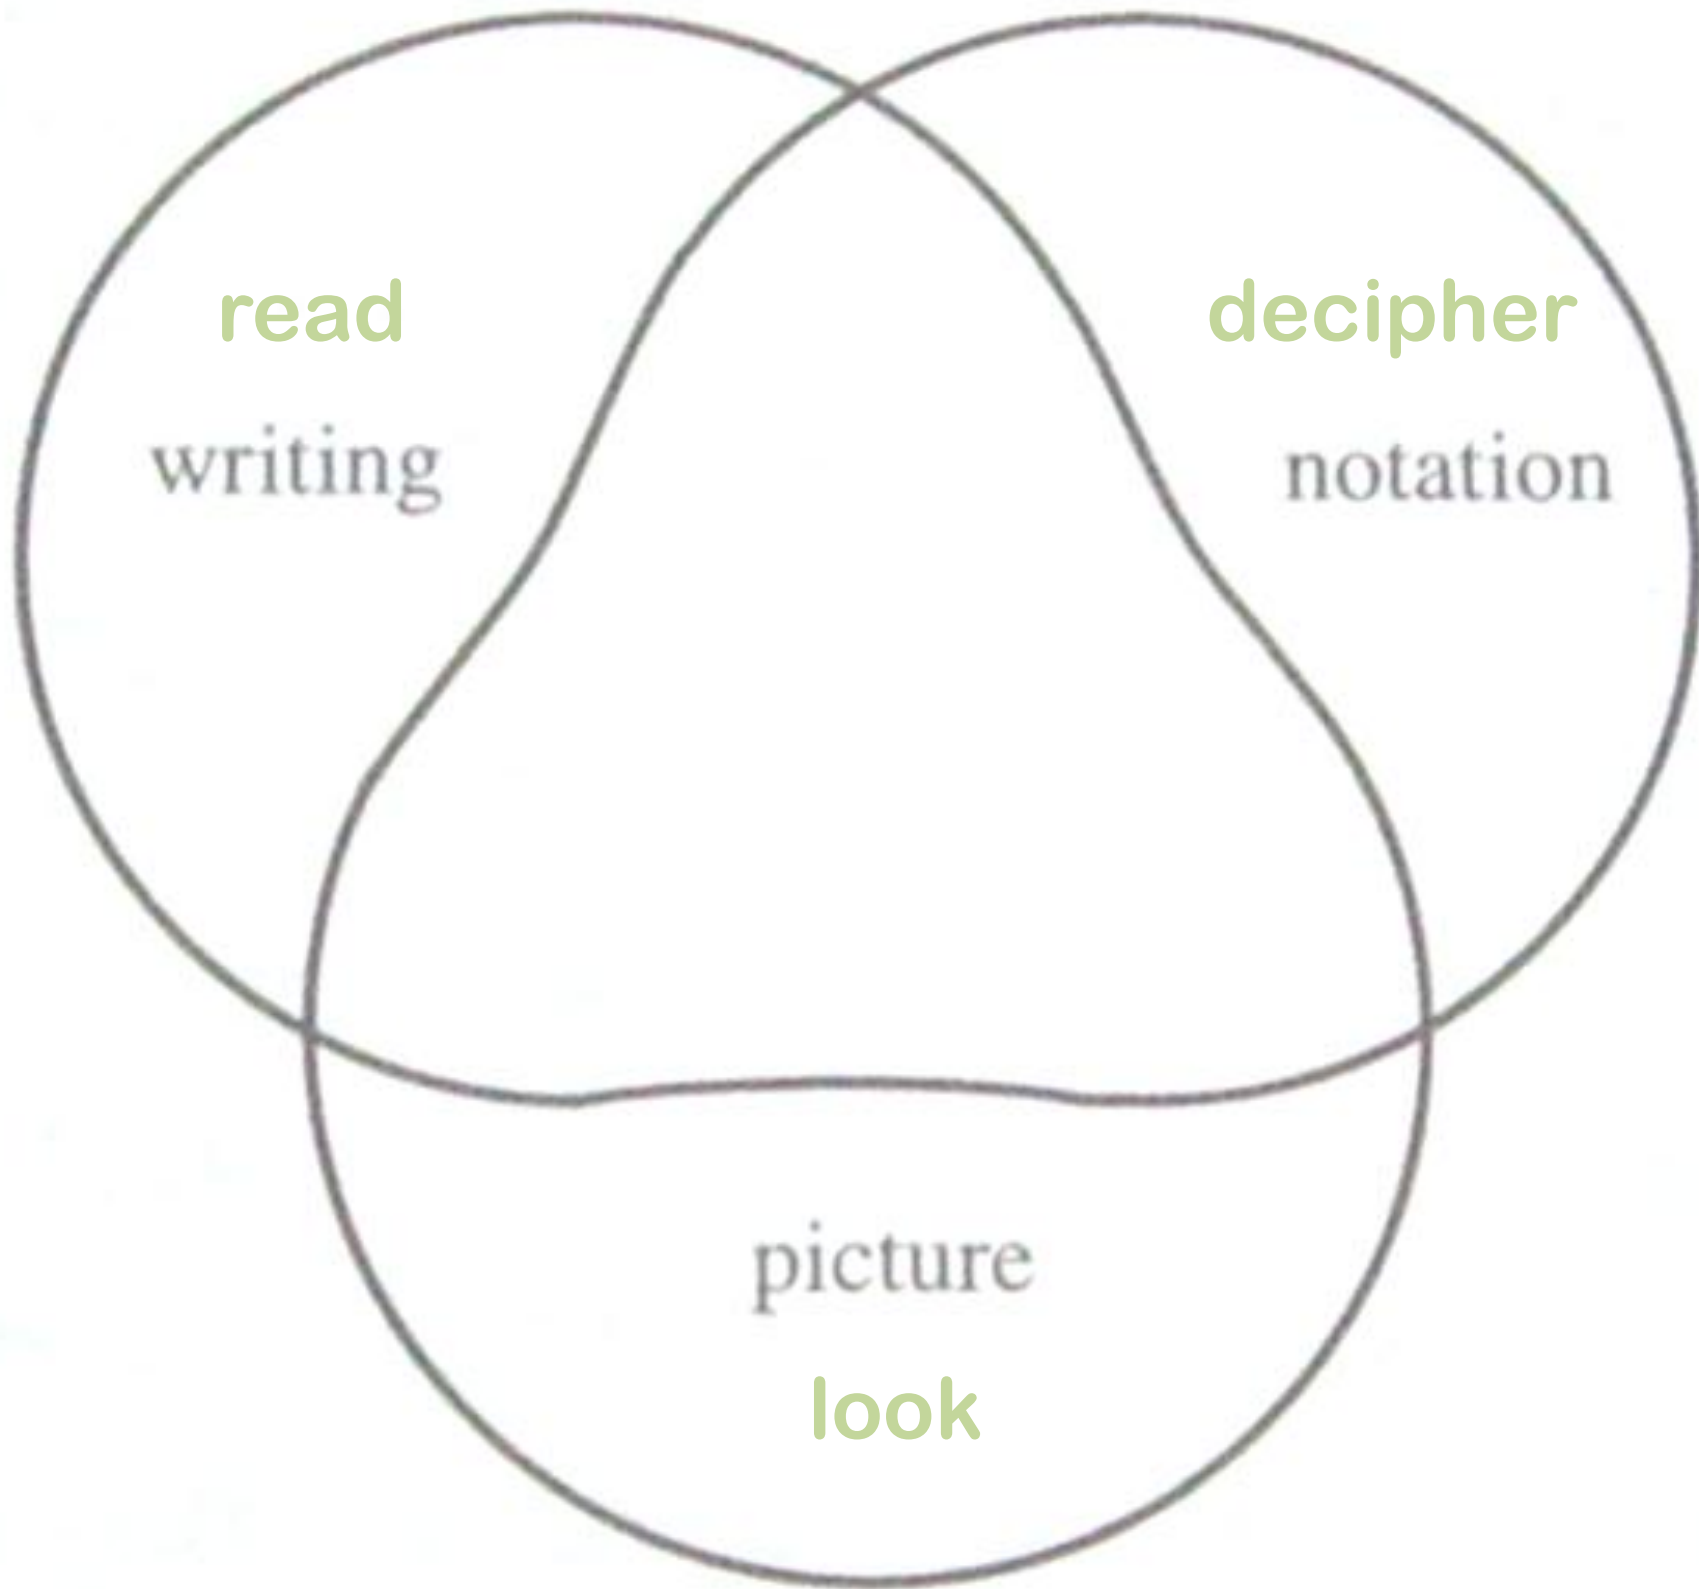

Domain of images as a whole:

gramma (picture, piece of writing)

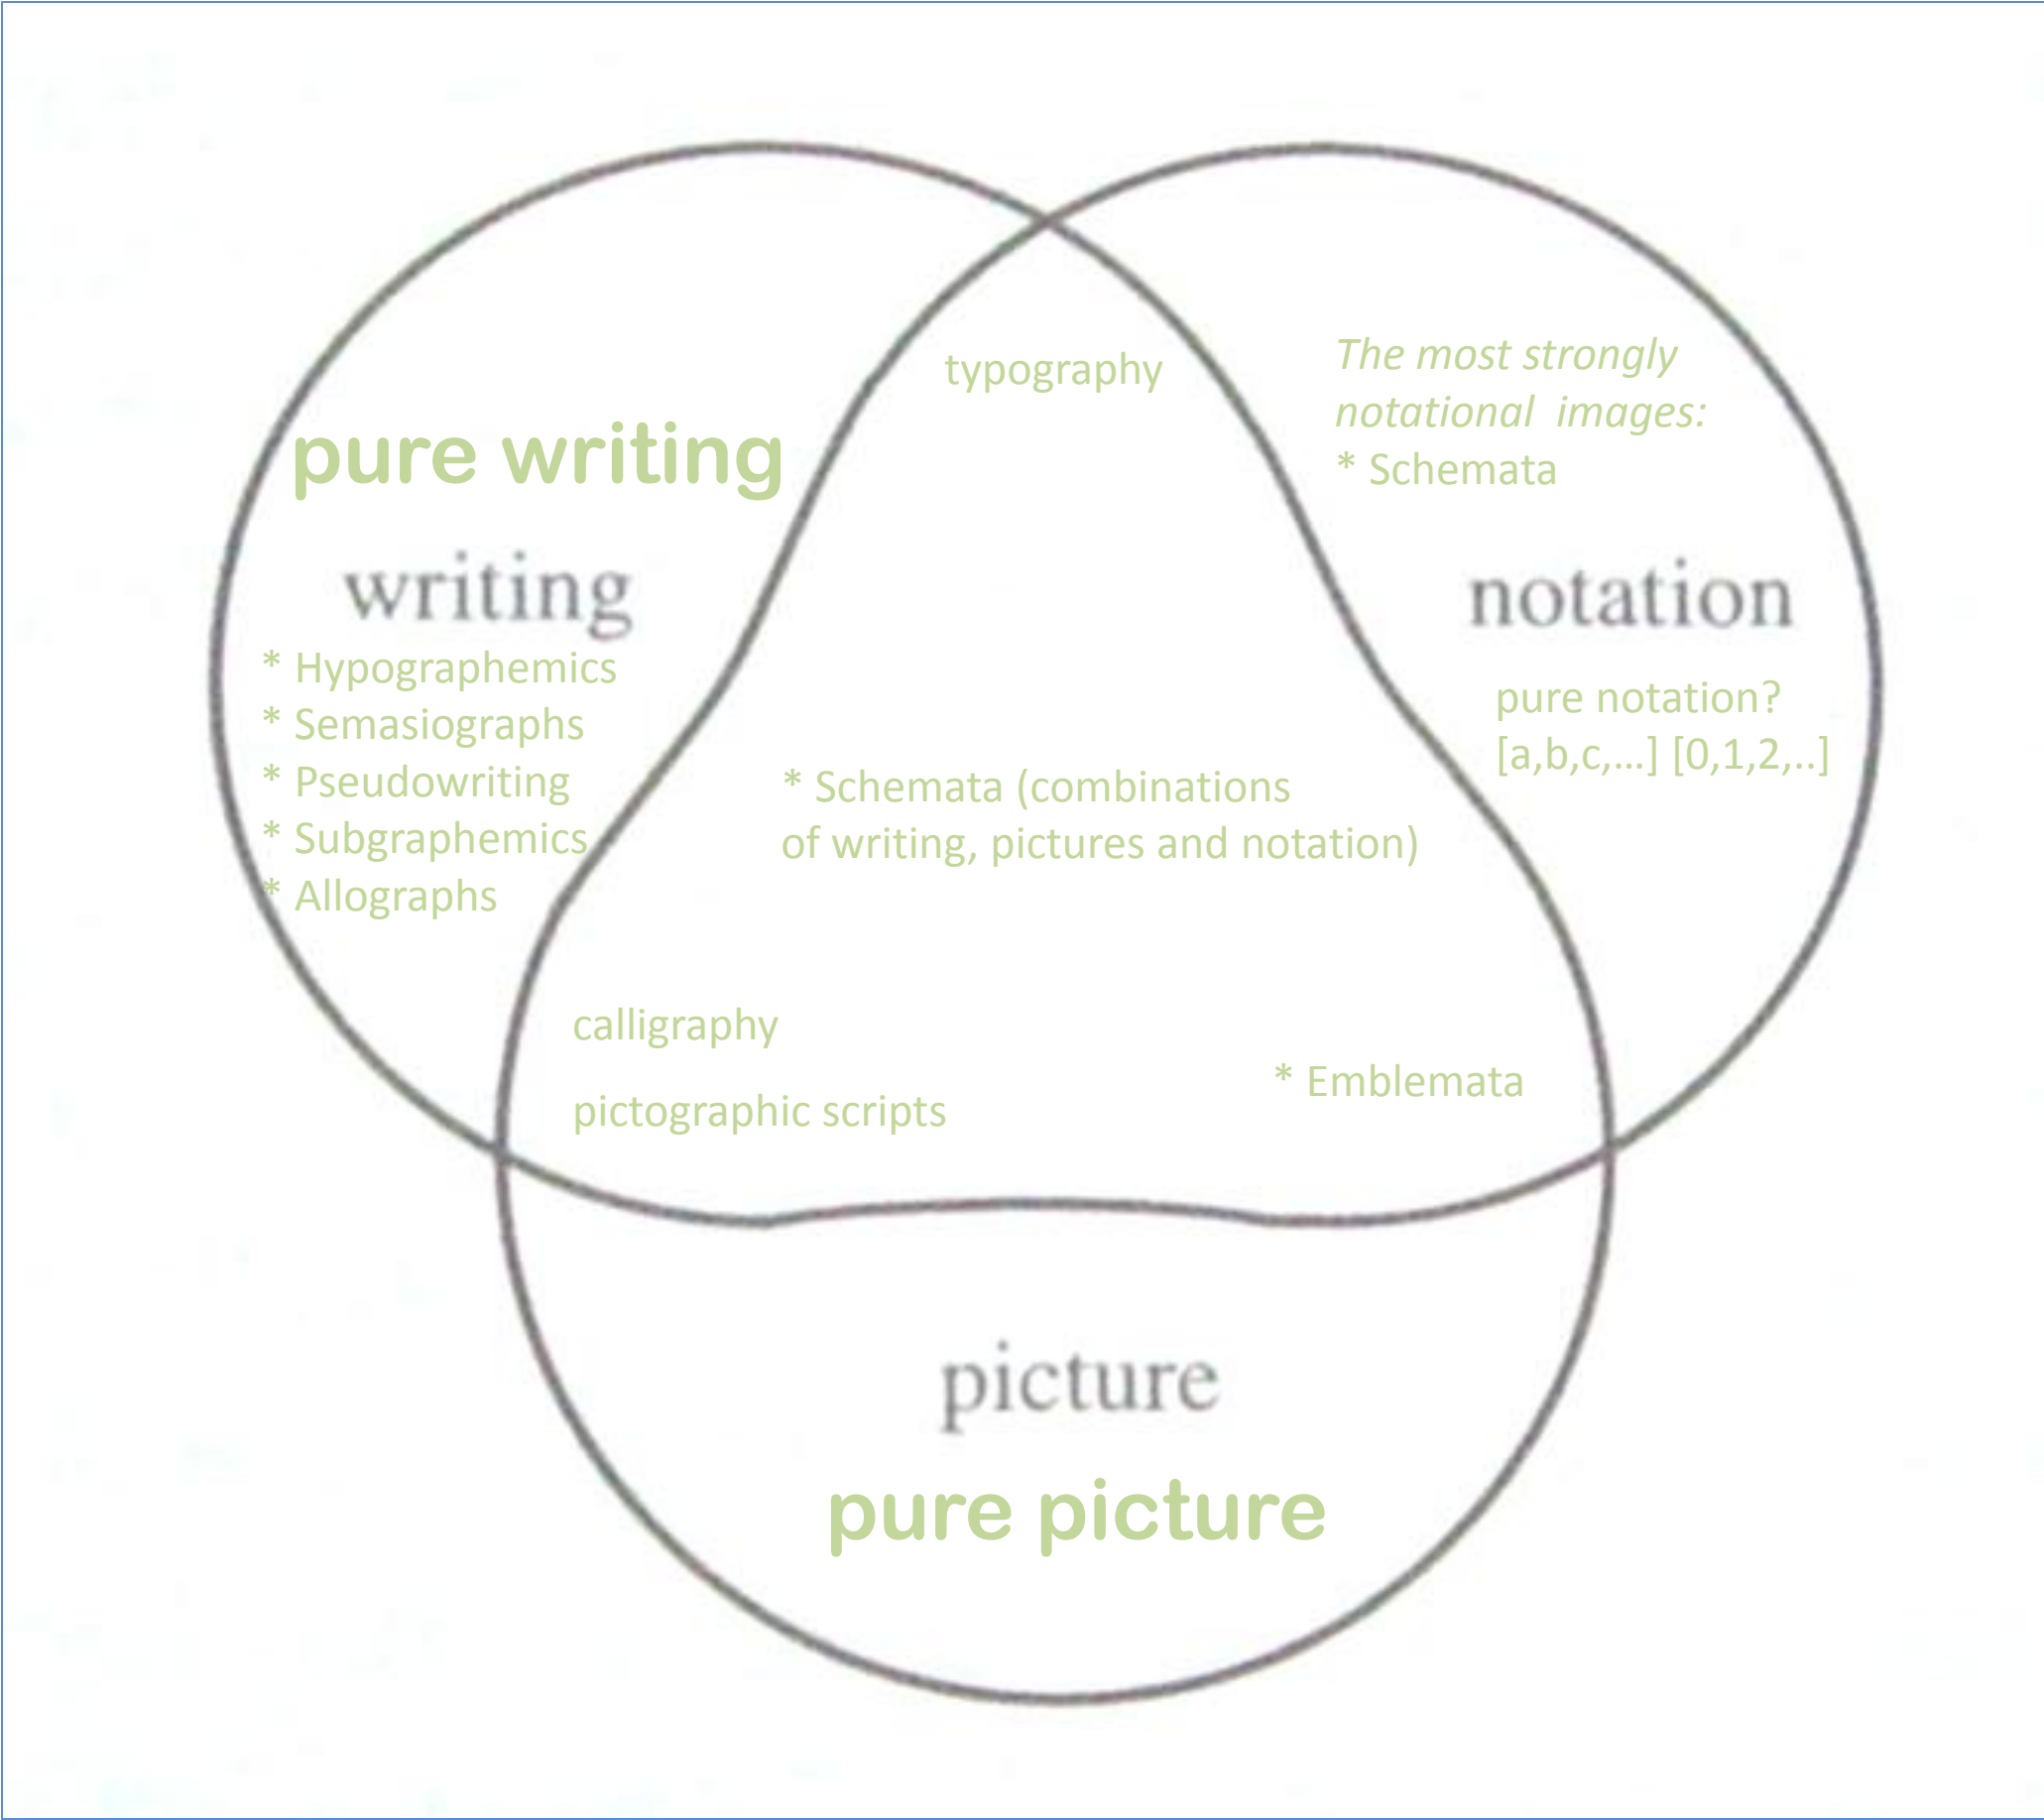

graphein (verb: writing drawing, scratching)

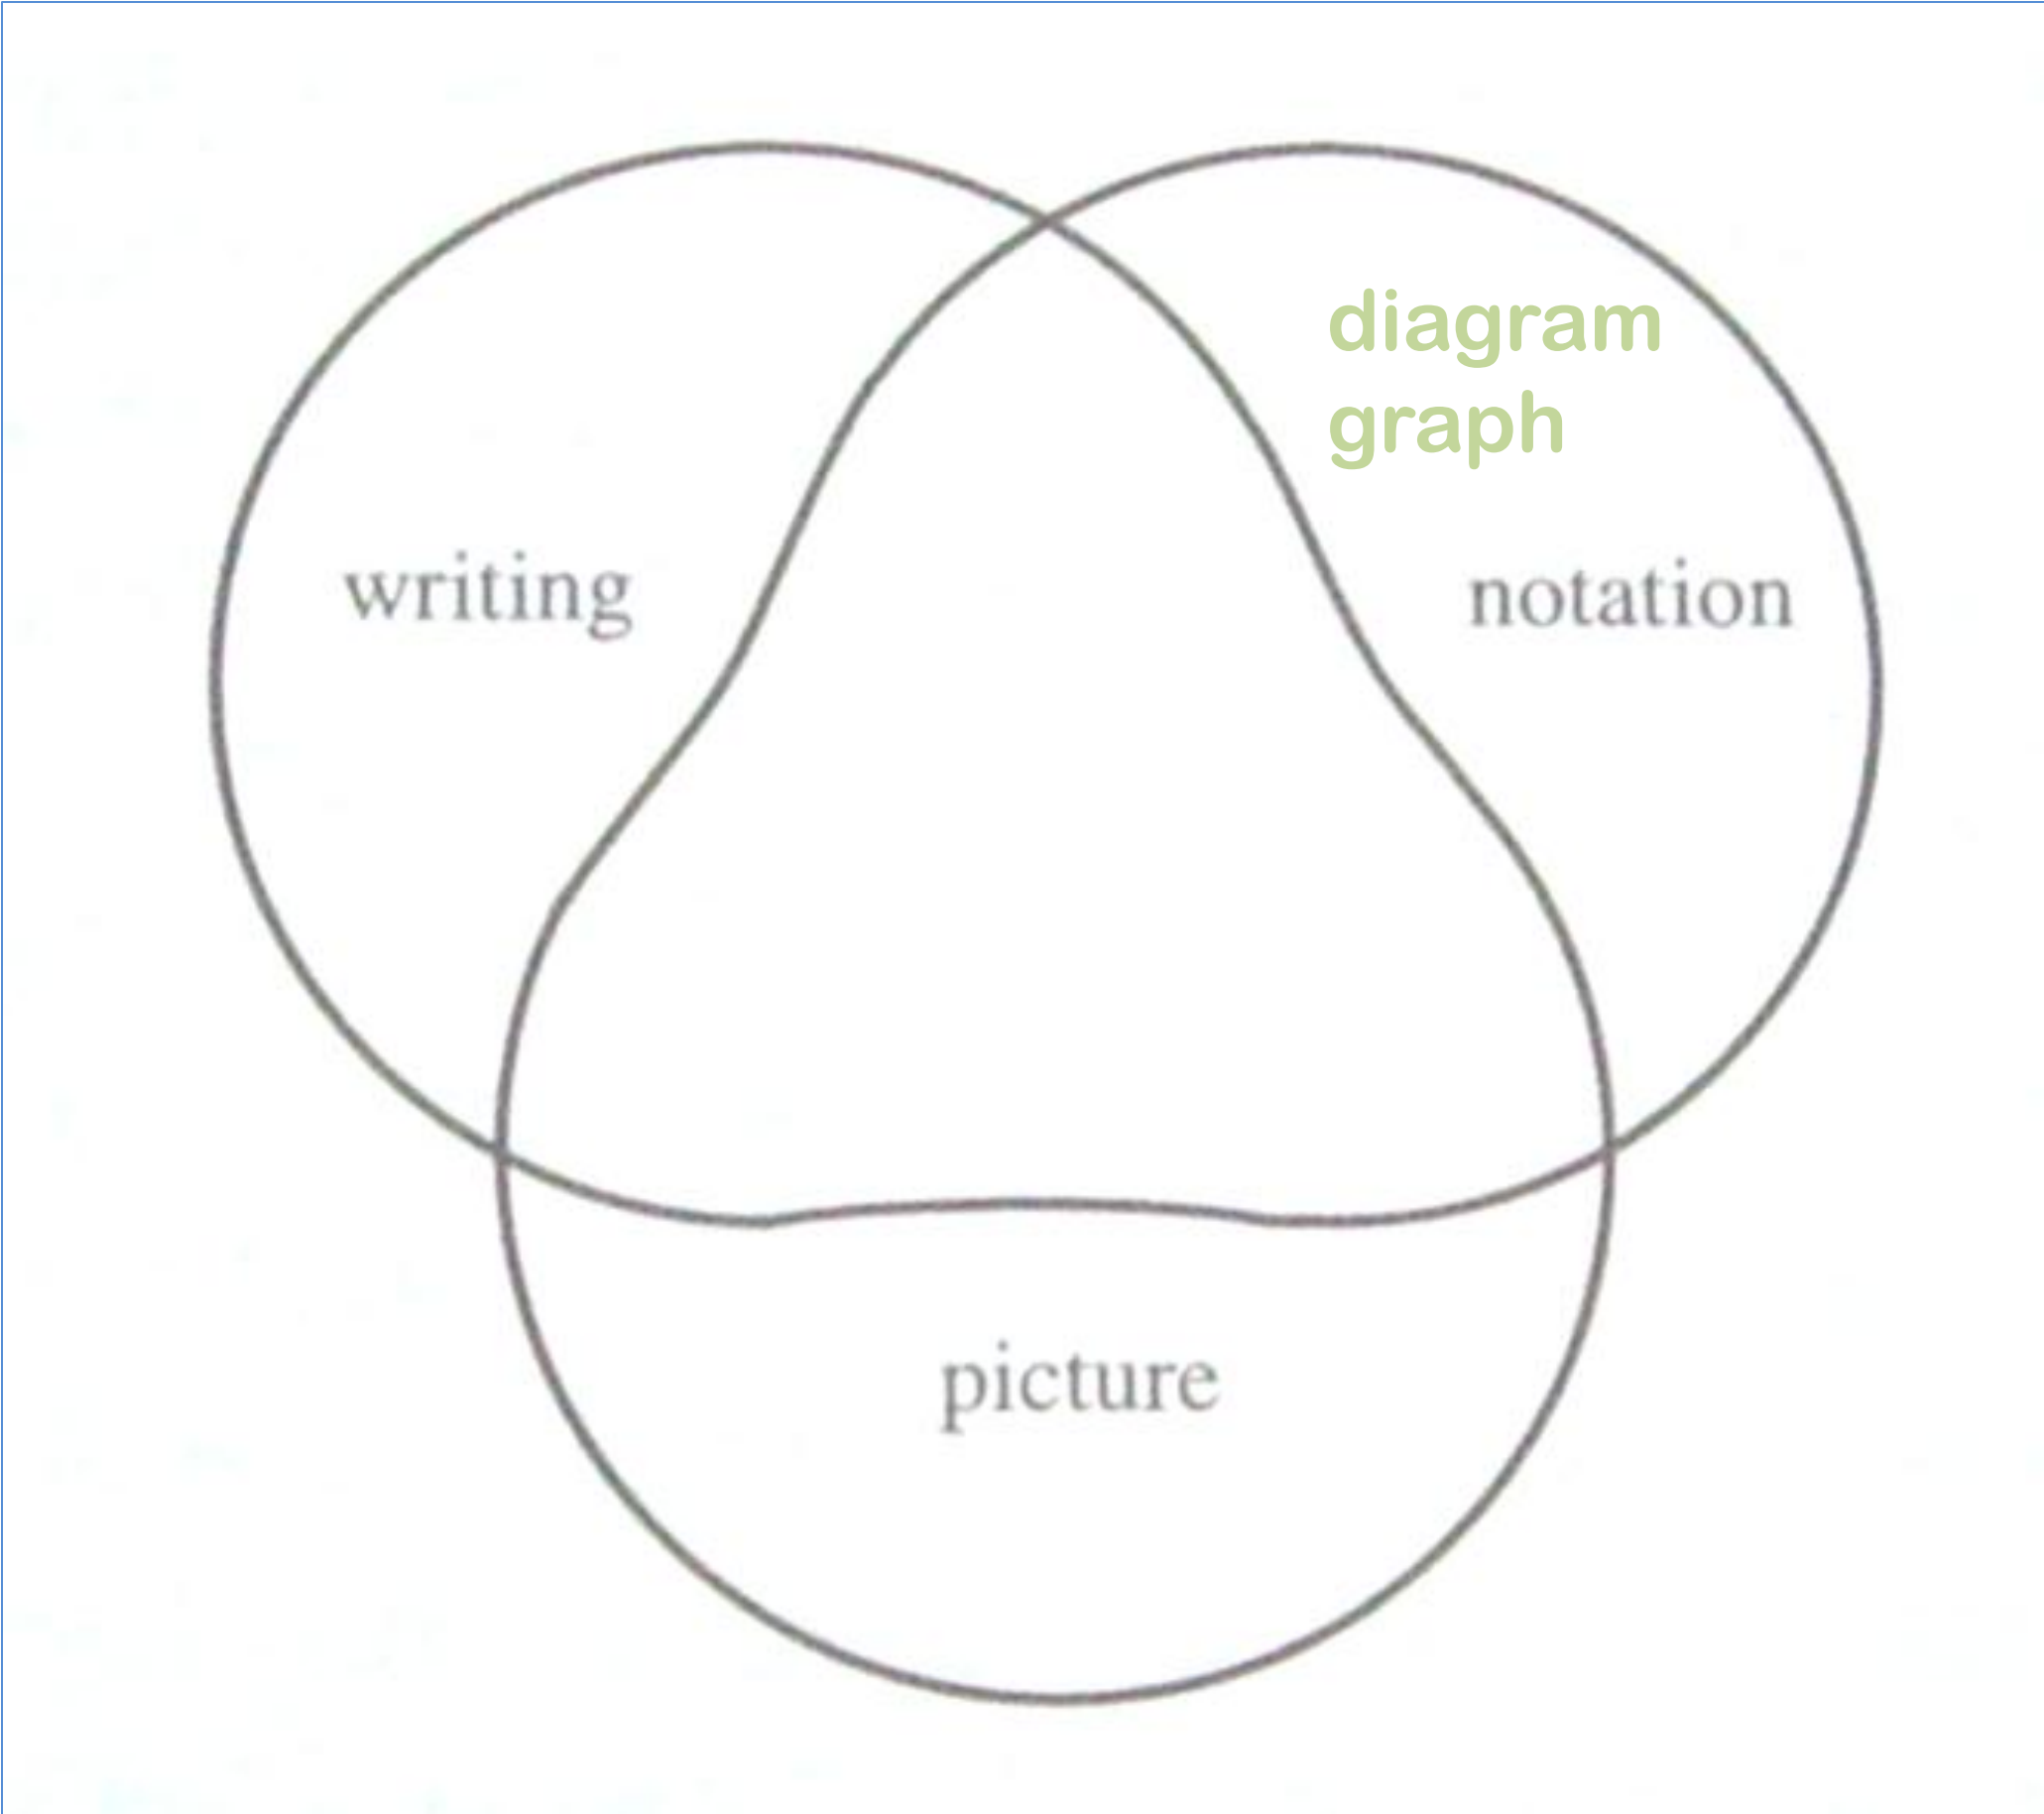

gramma/graphein: Indo-European root :gerebh-

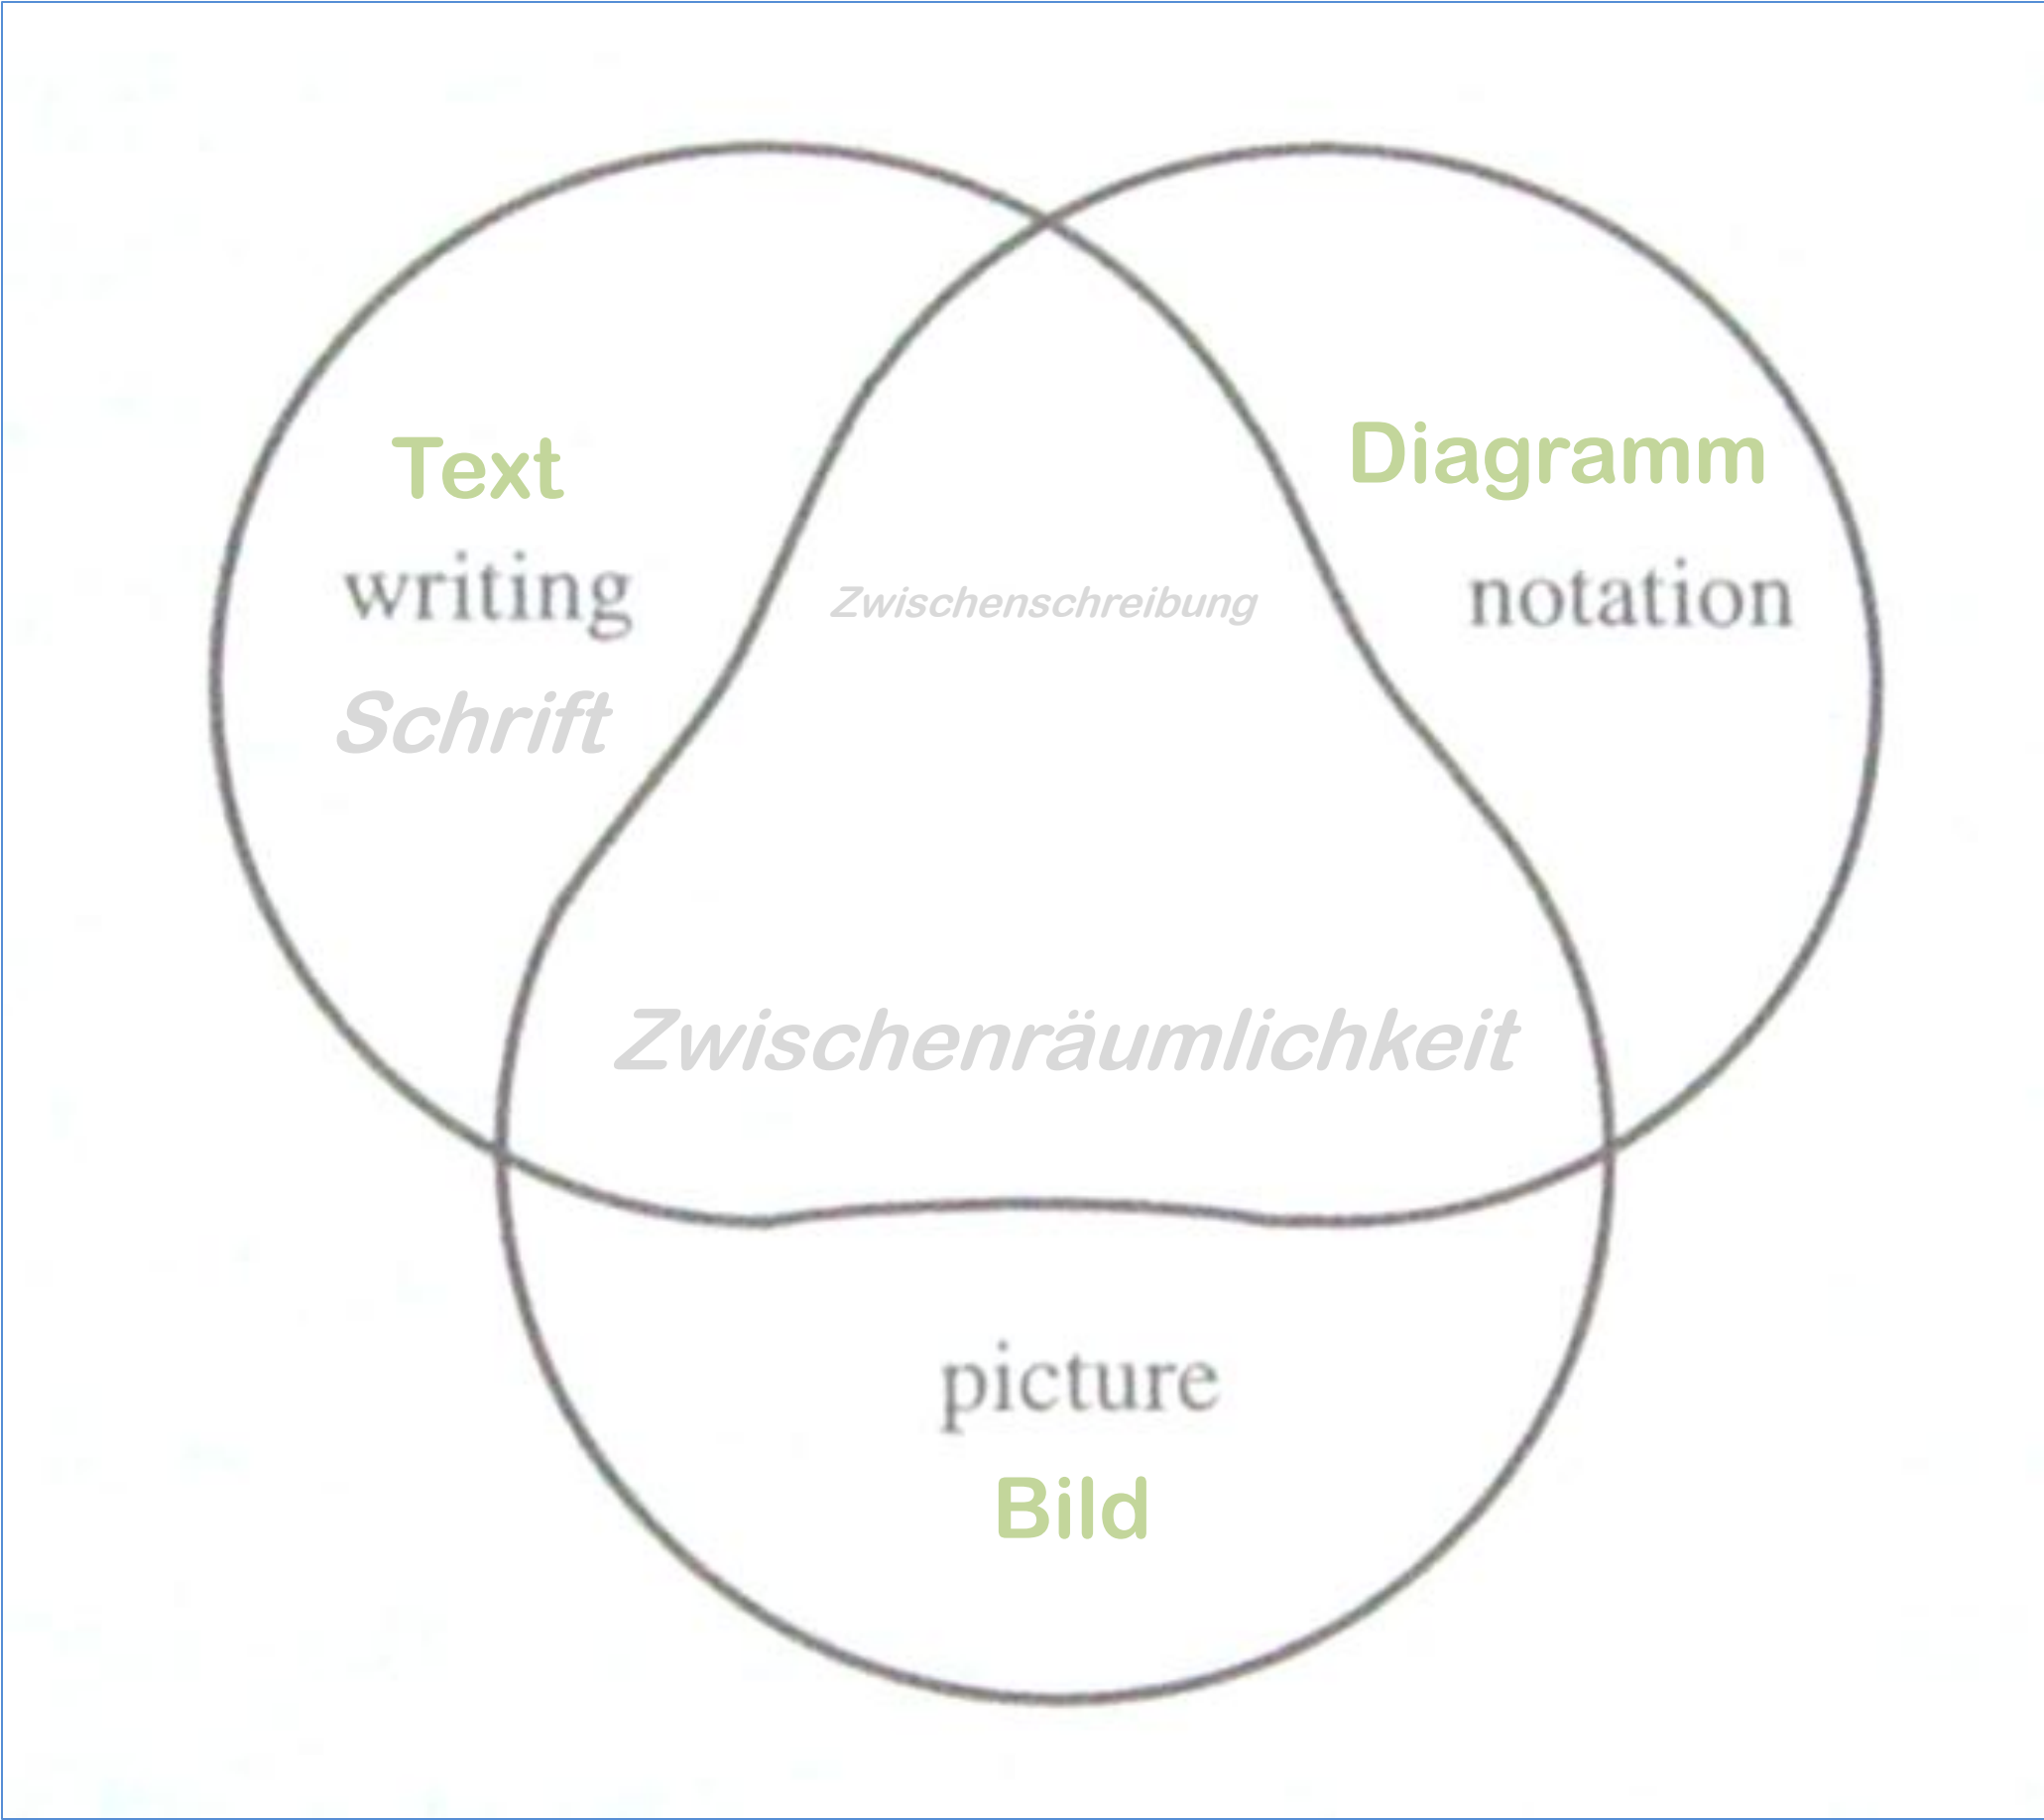

domain of images

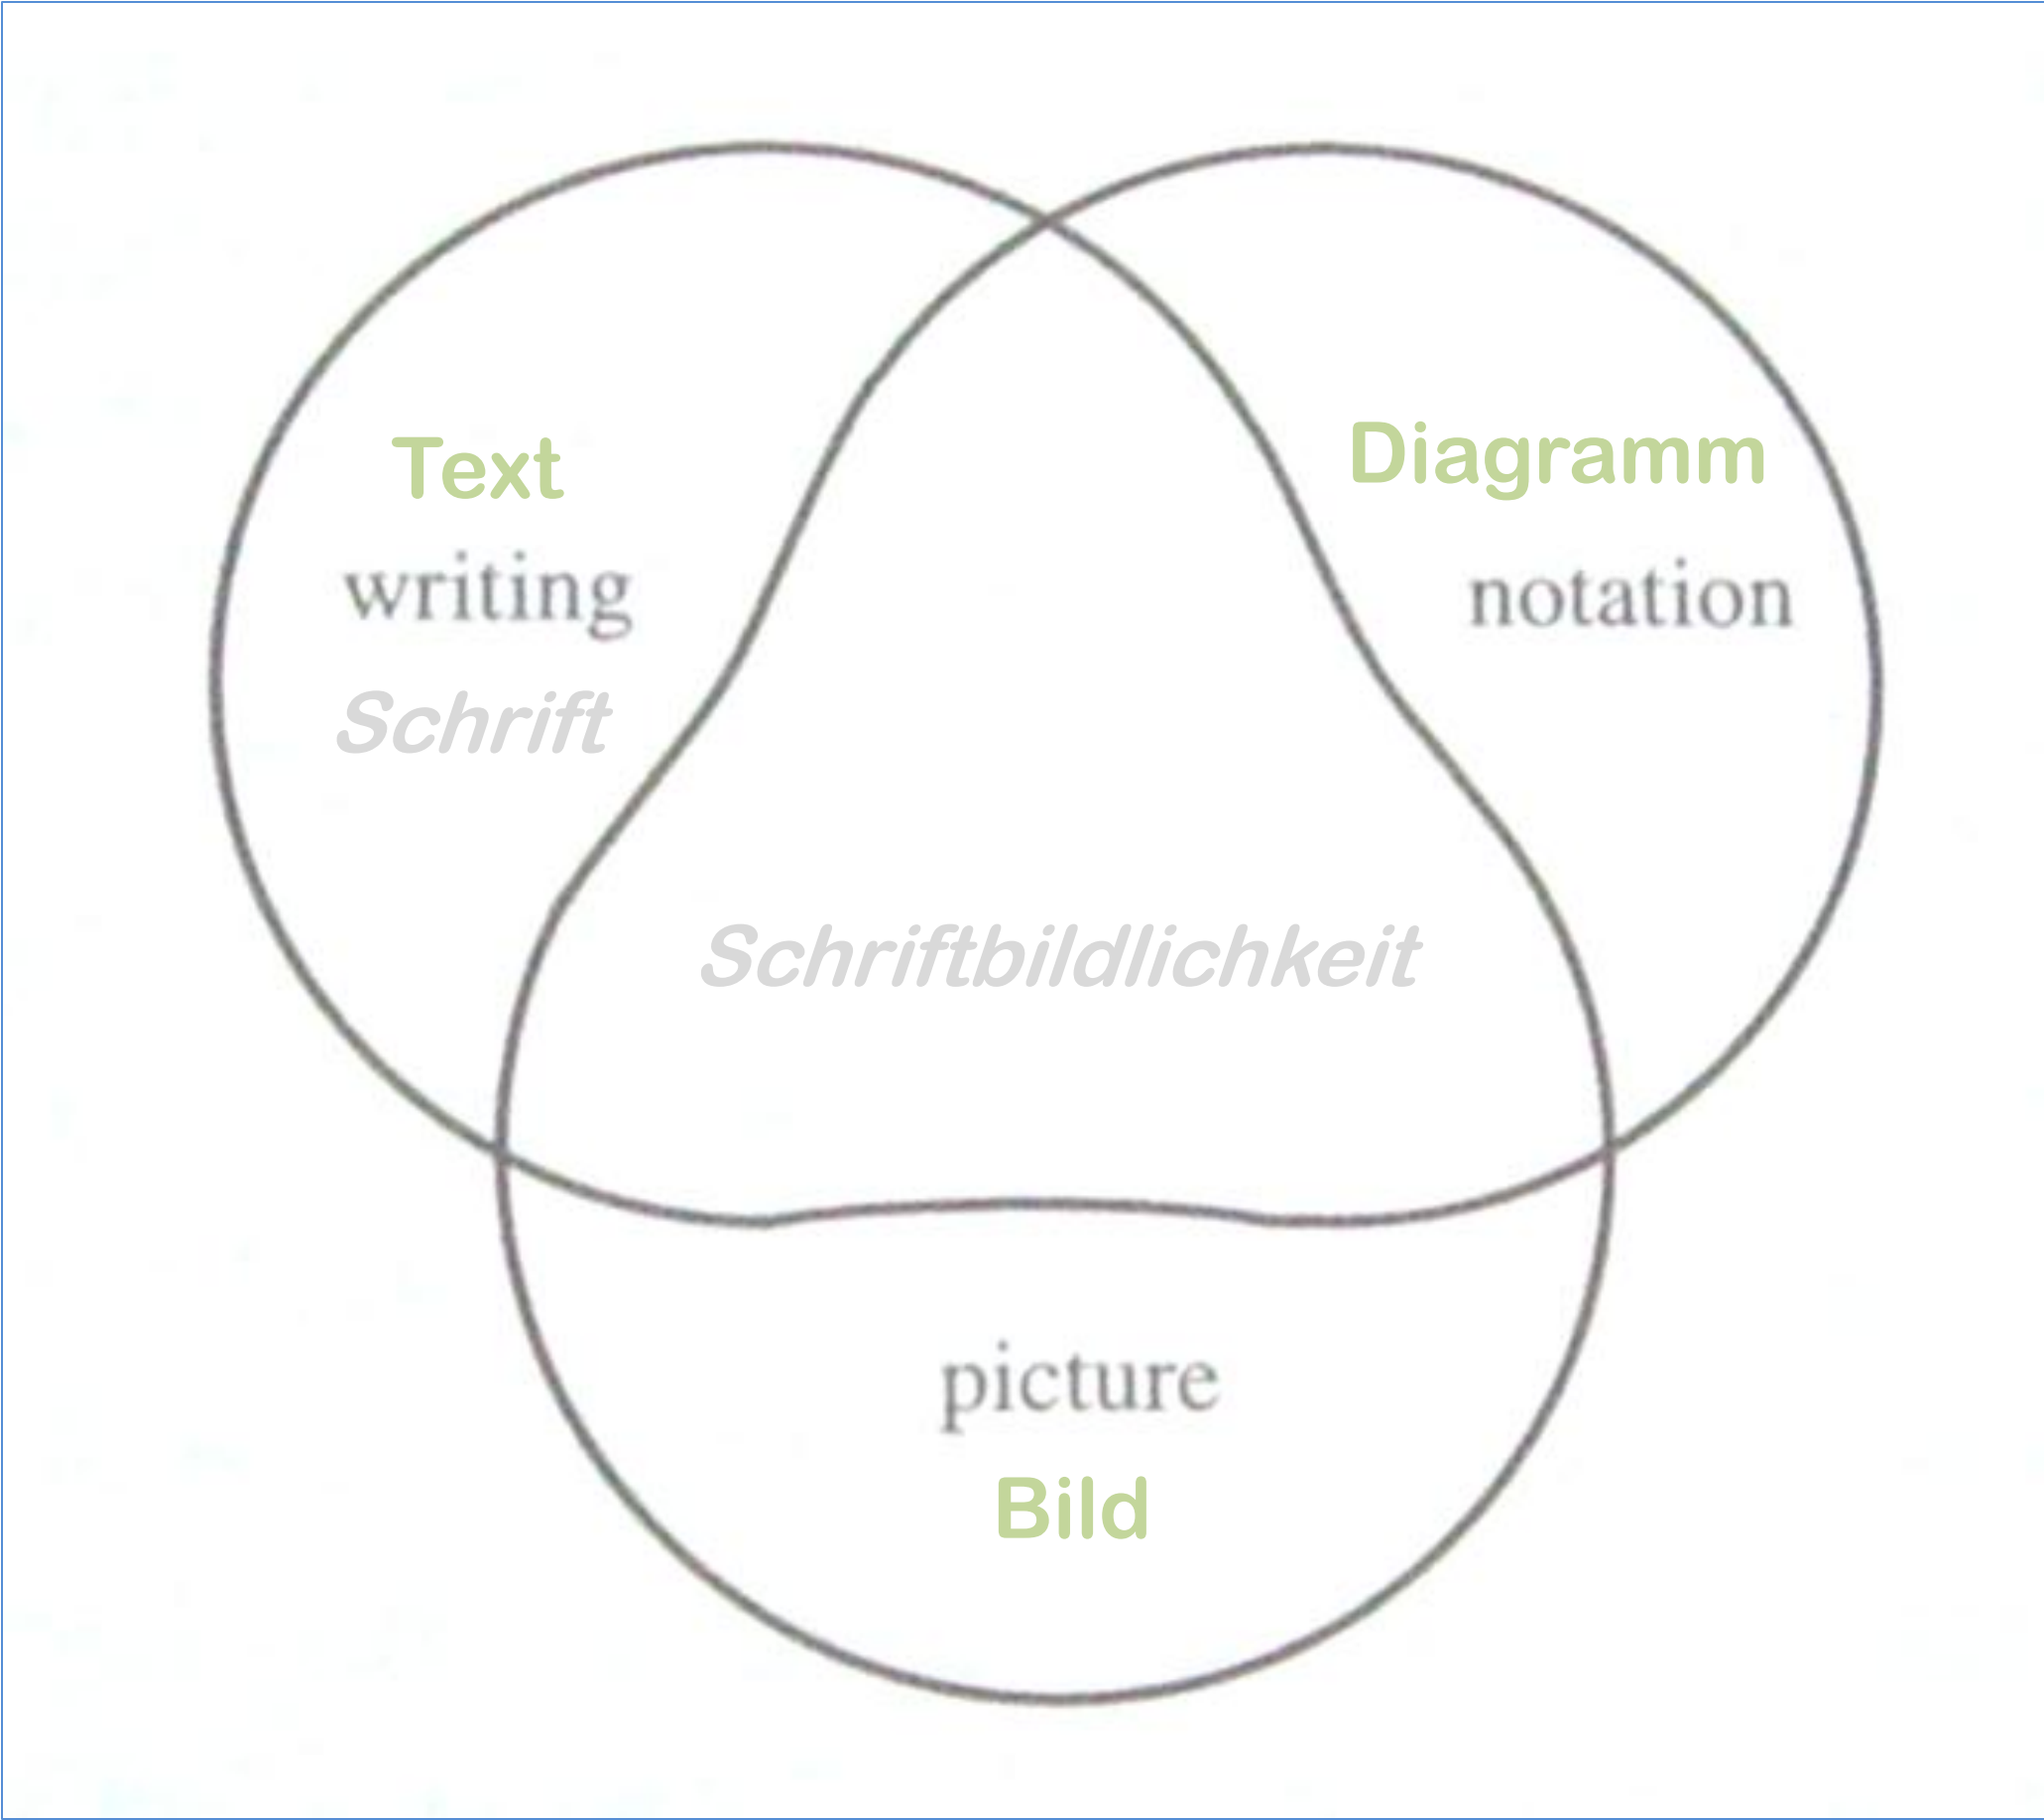

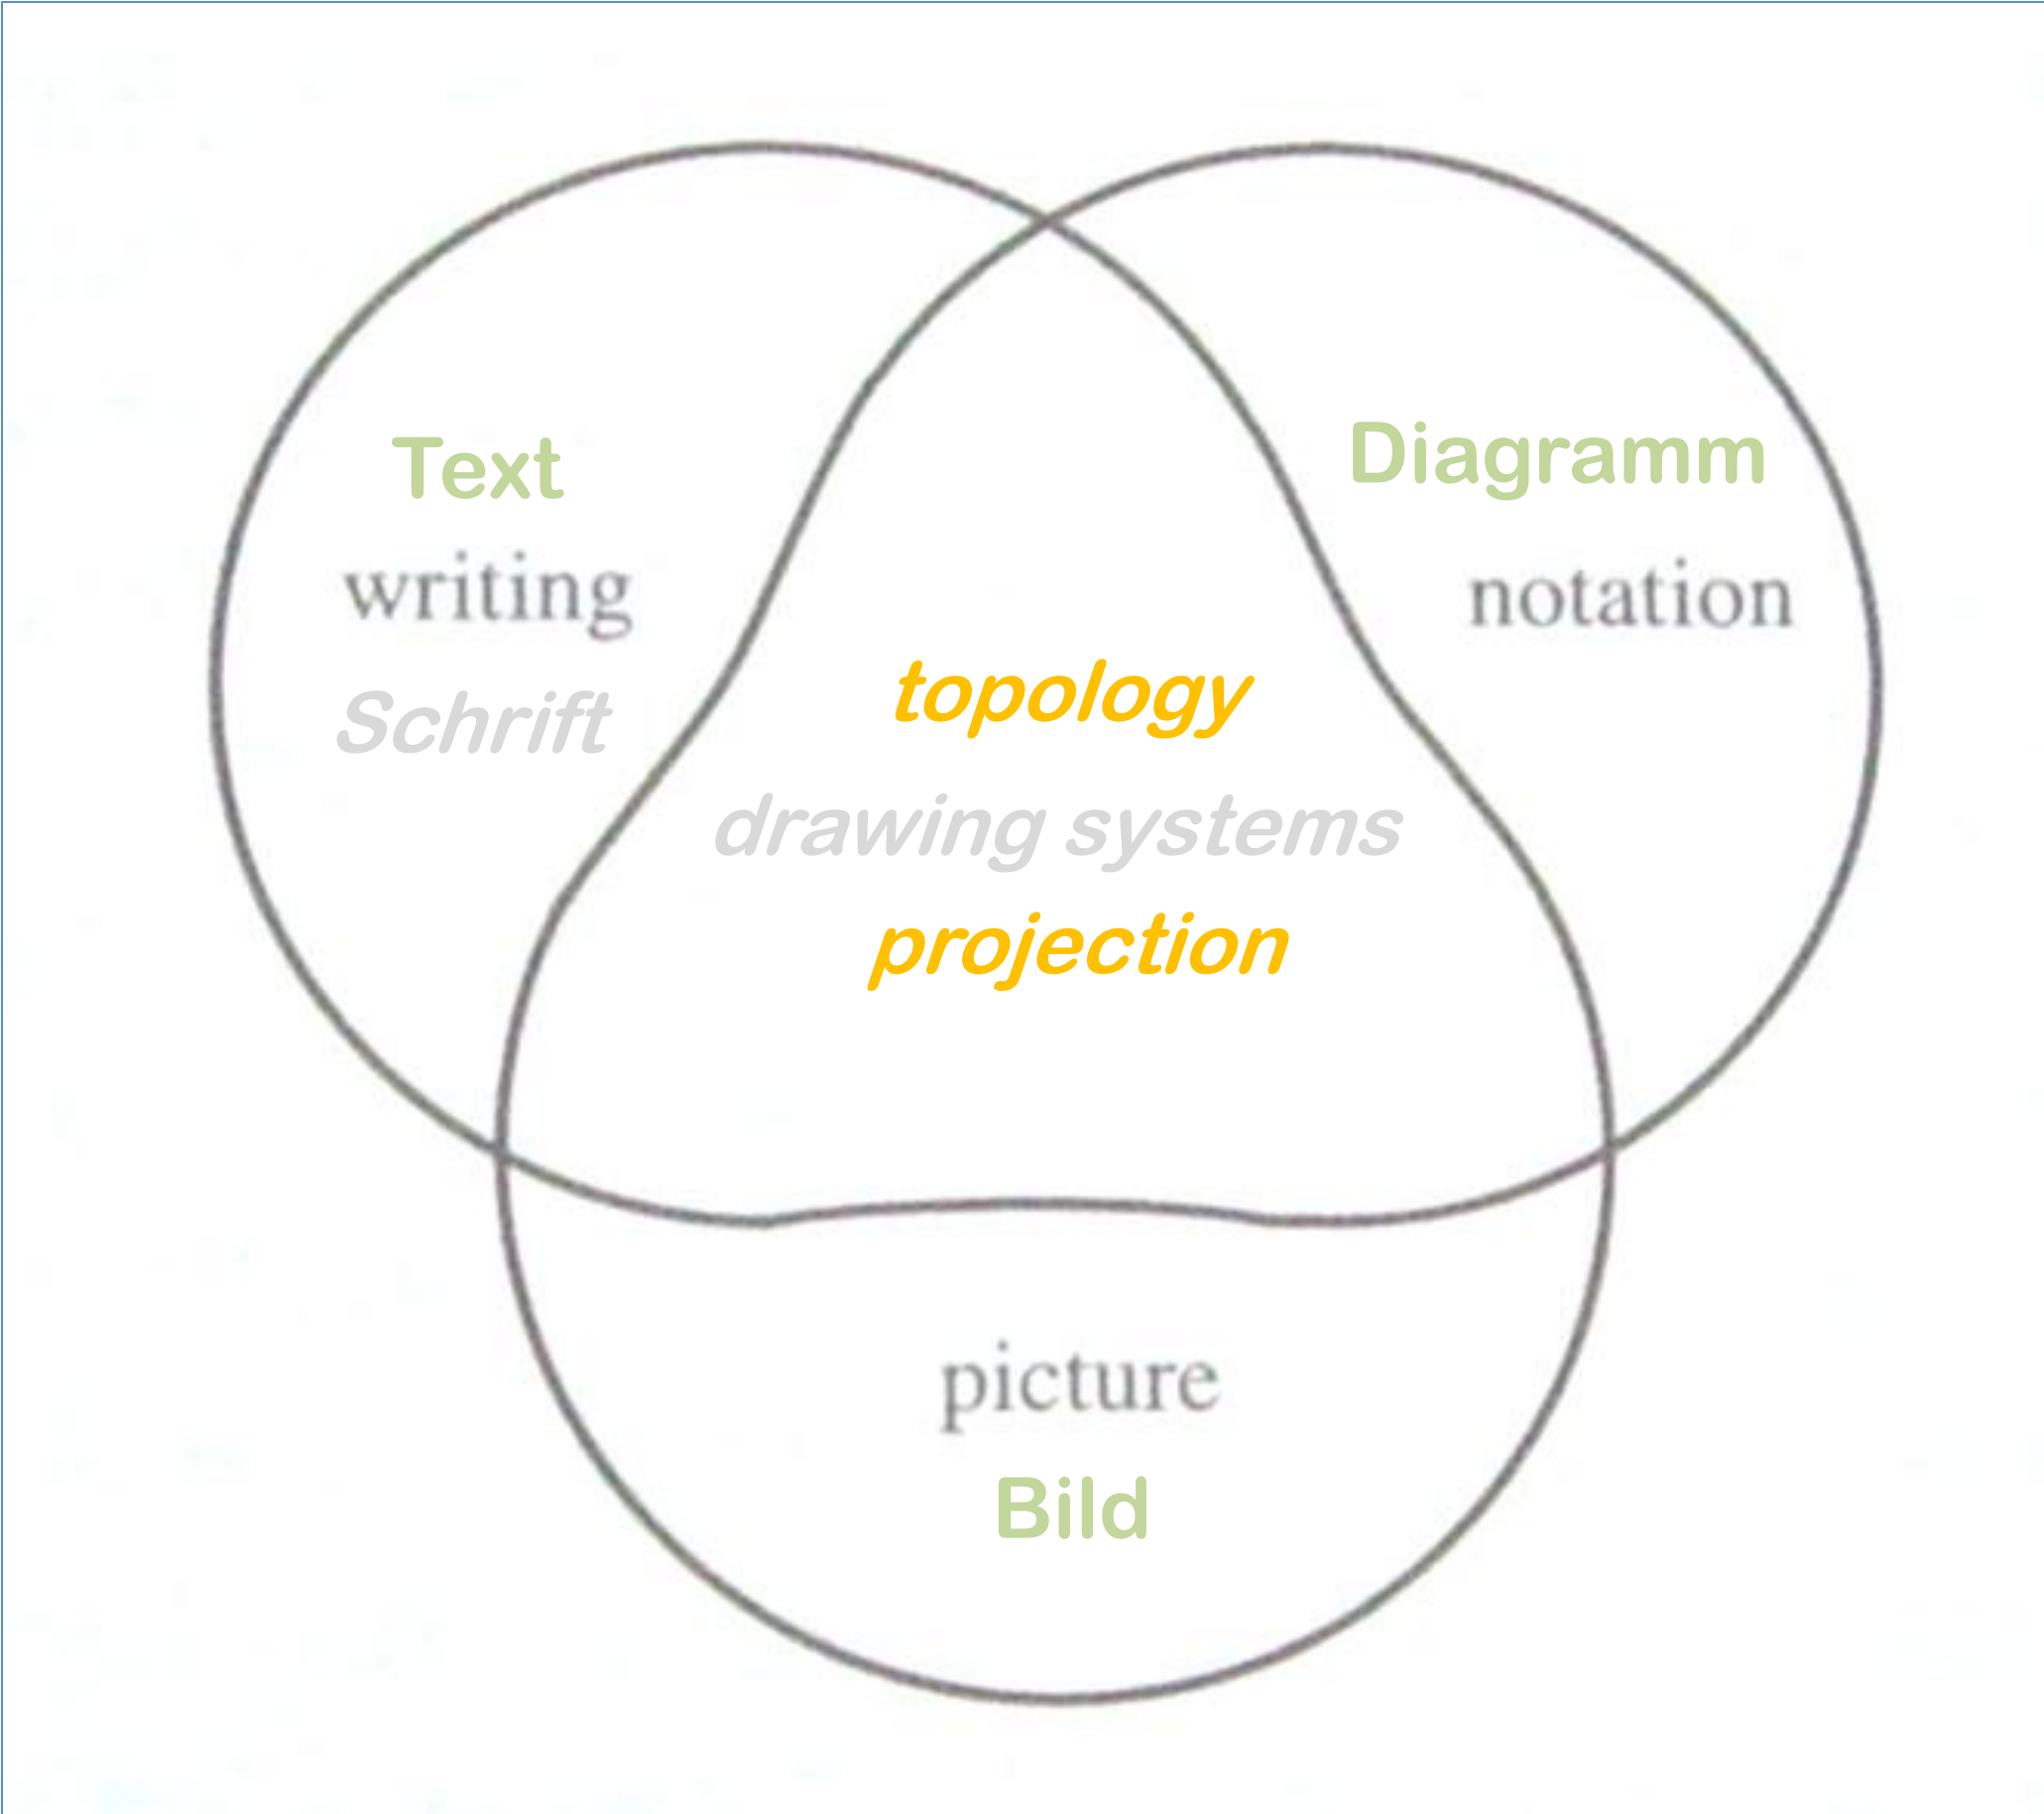

entschlüsseln
dechiffrieren
entziffern

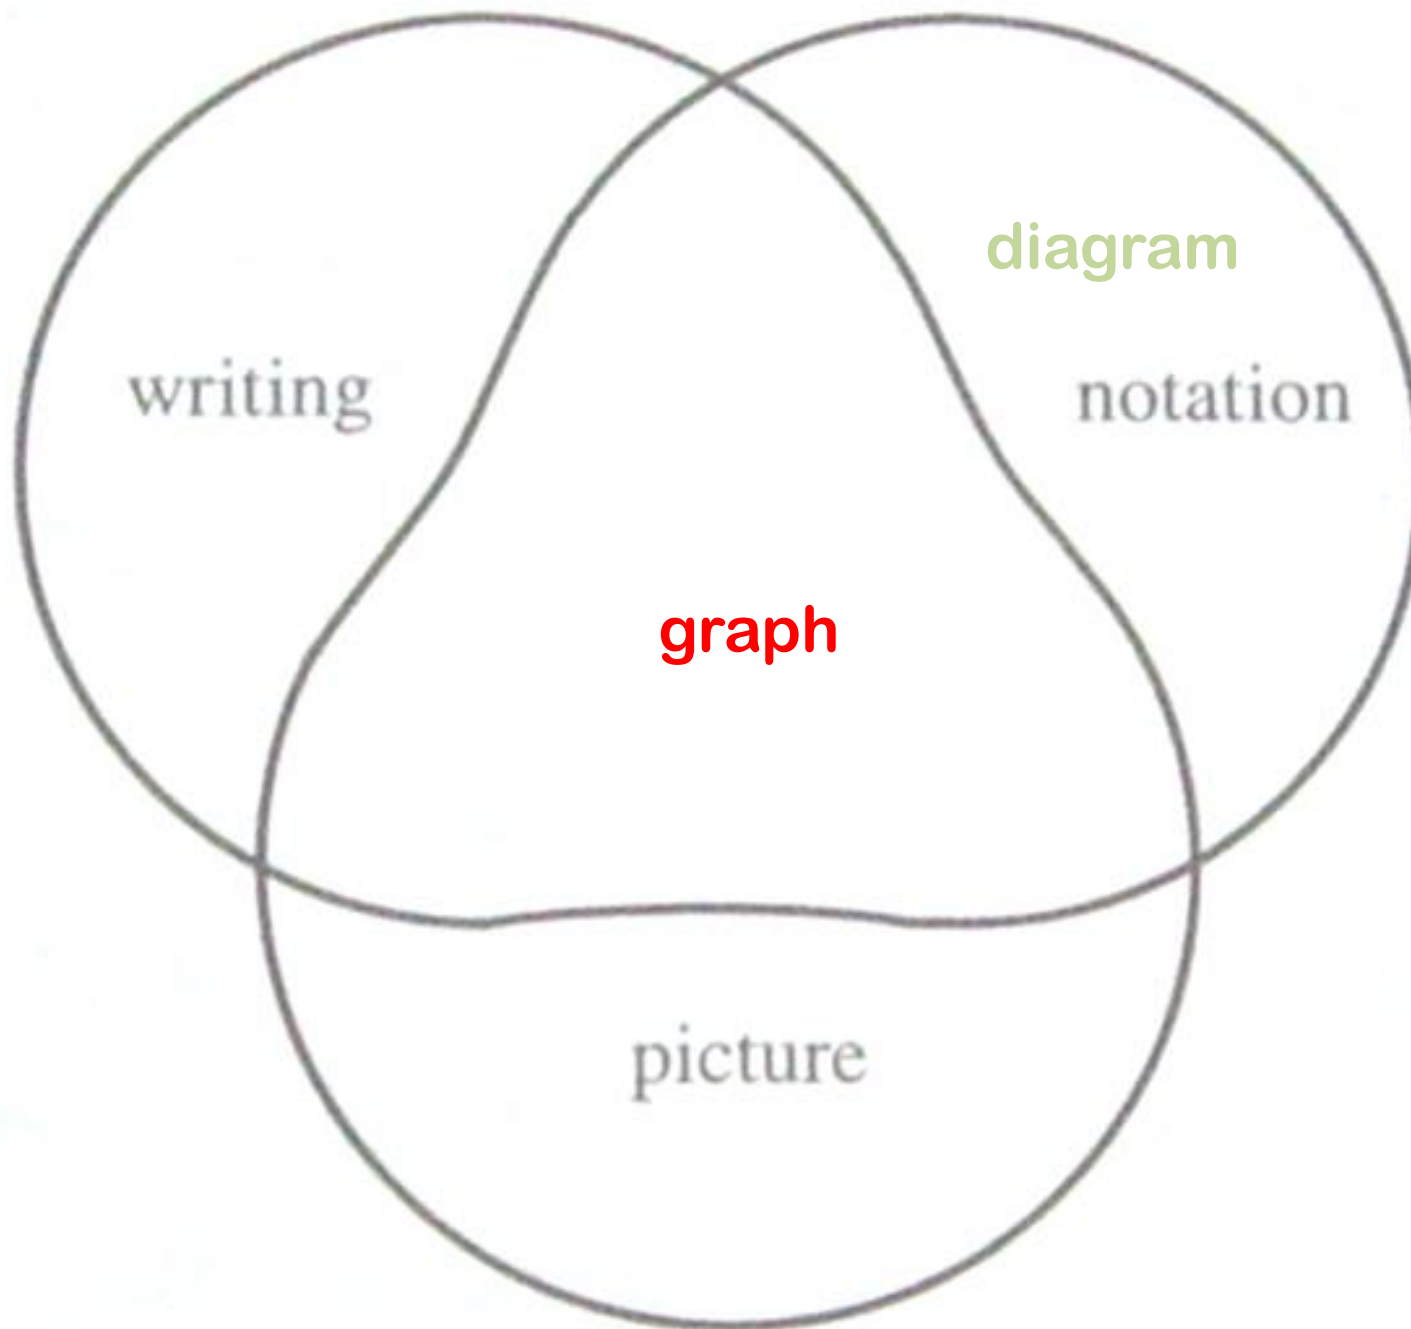

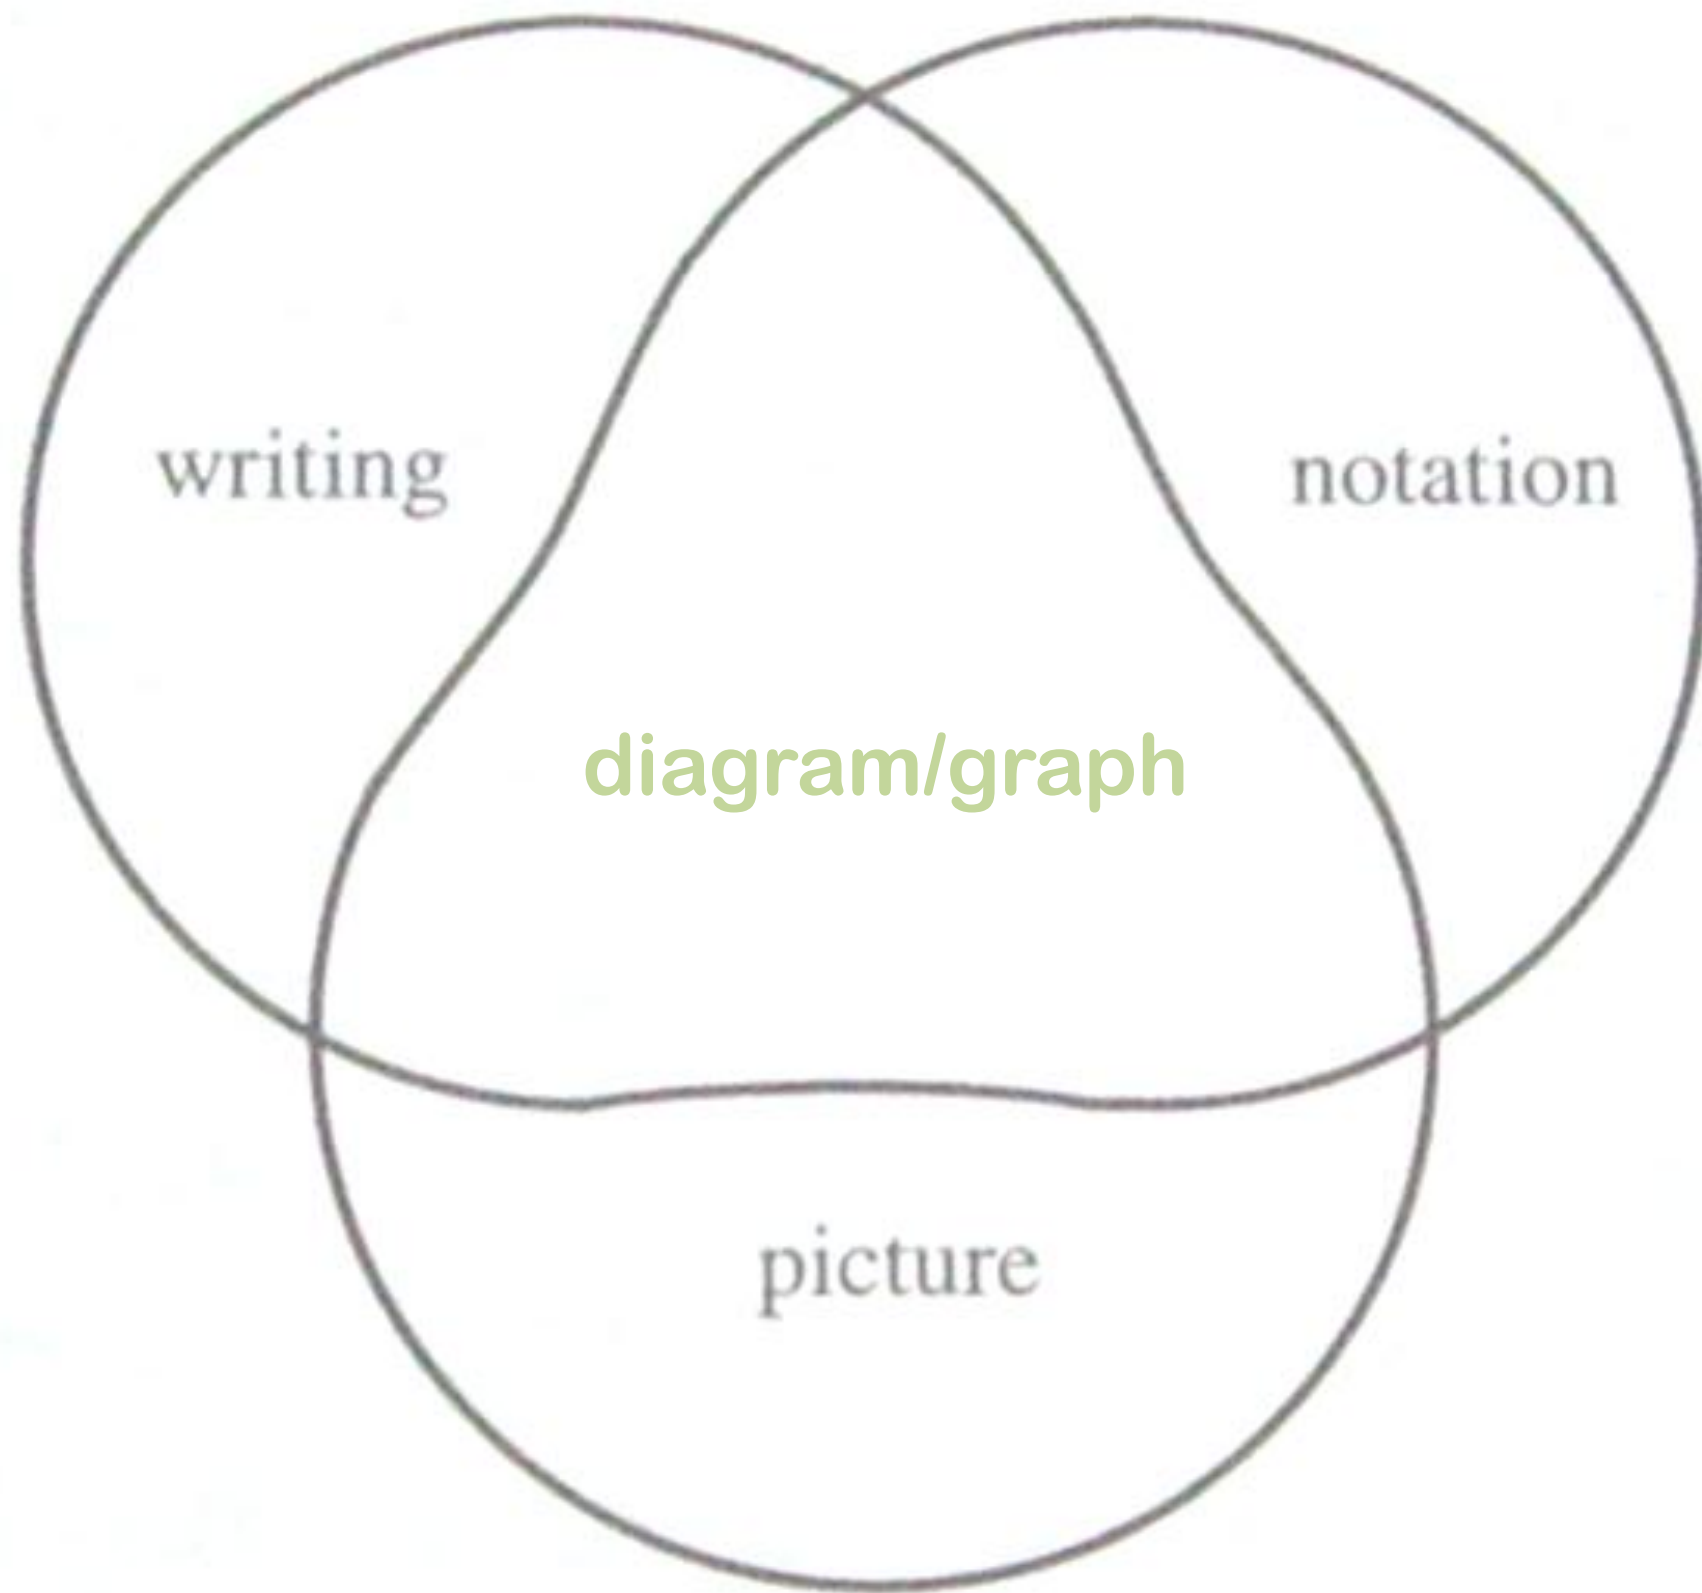

Unverträglichkeit mit N. Goodman:

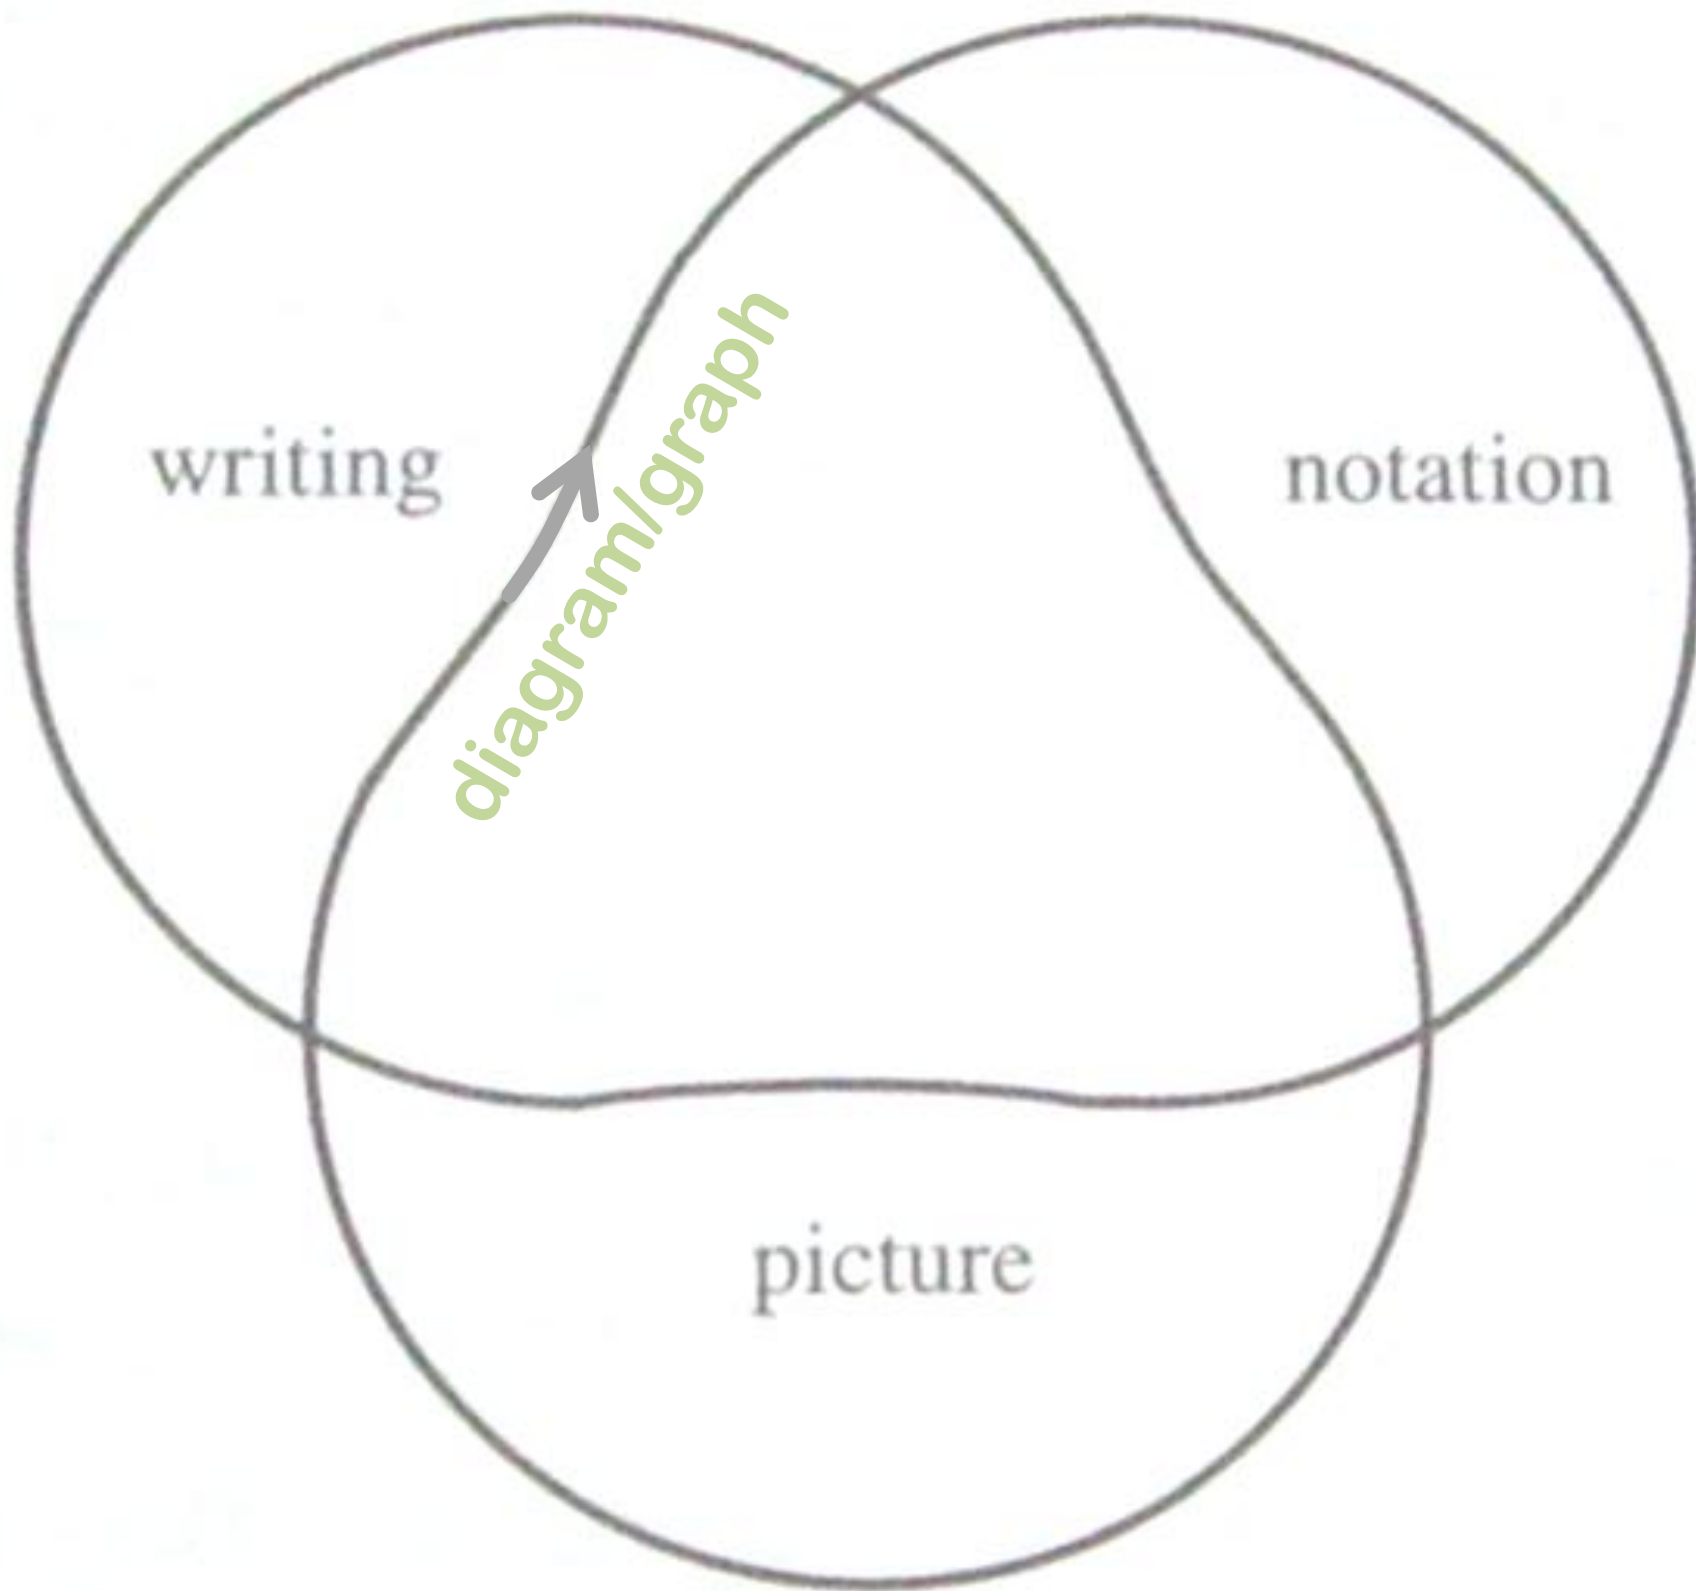

Diagramm: notational
 Graph: nicht-notational

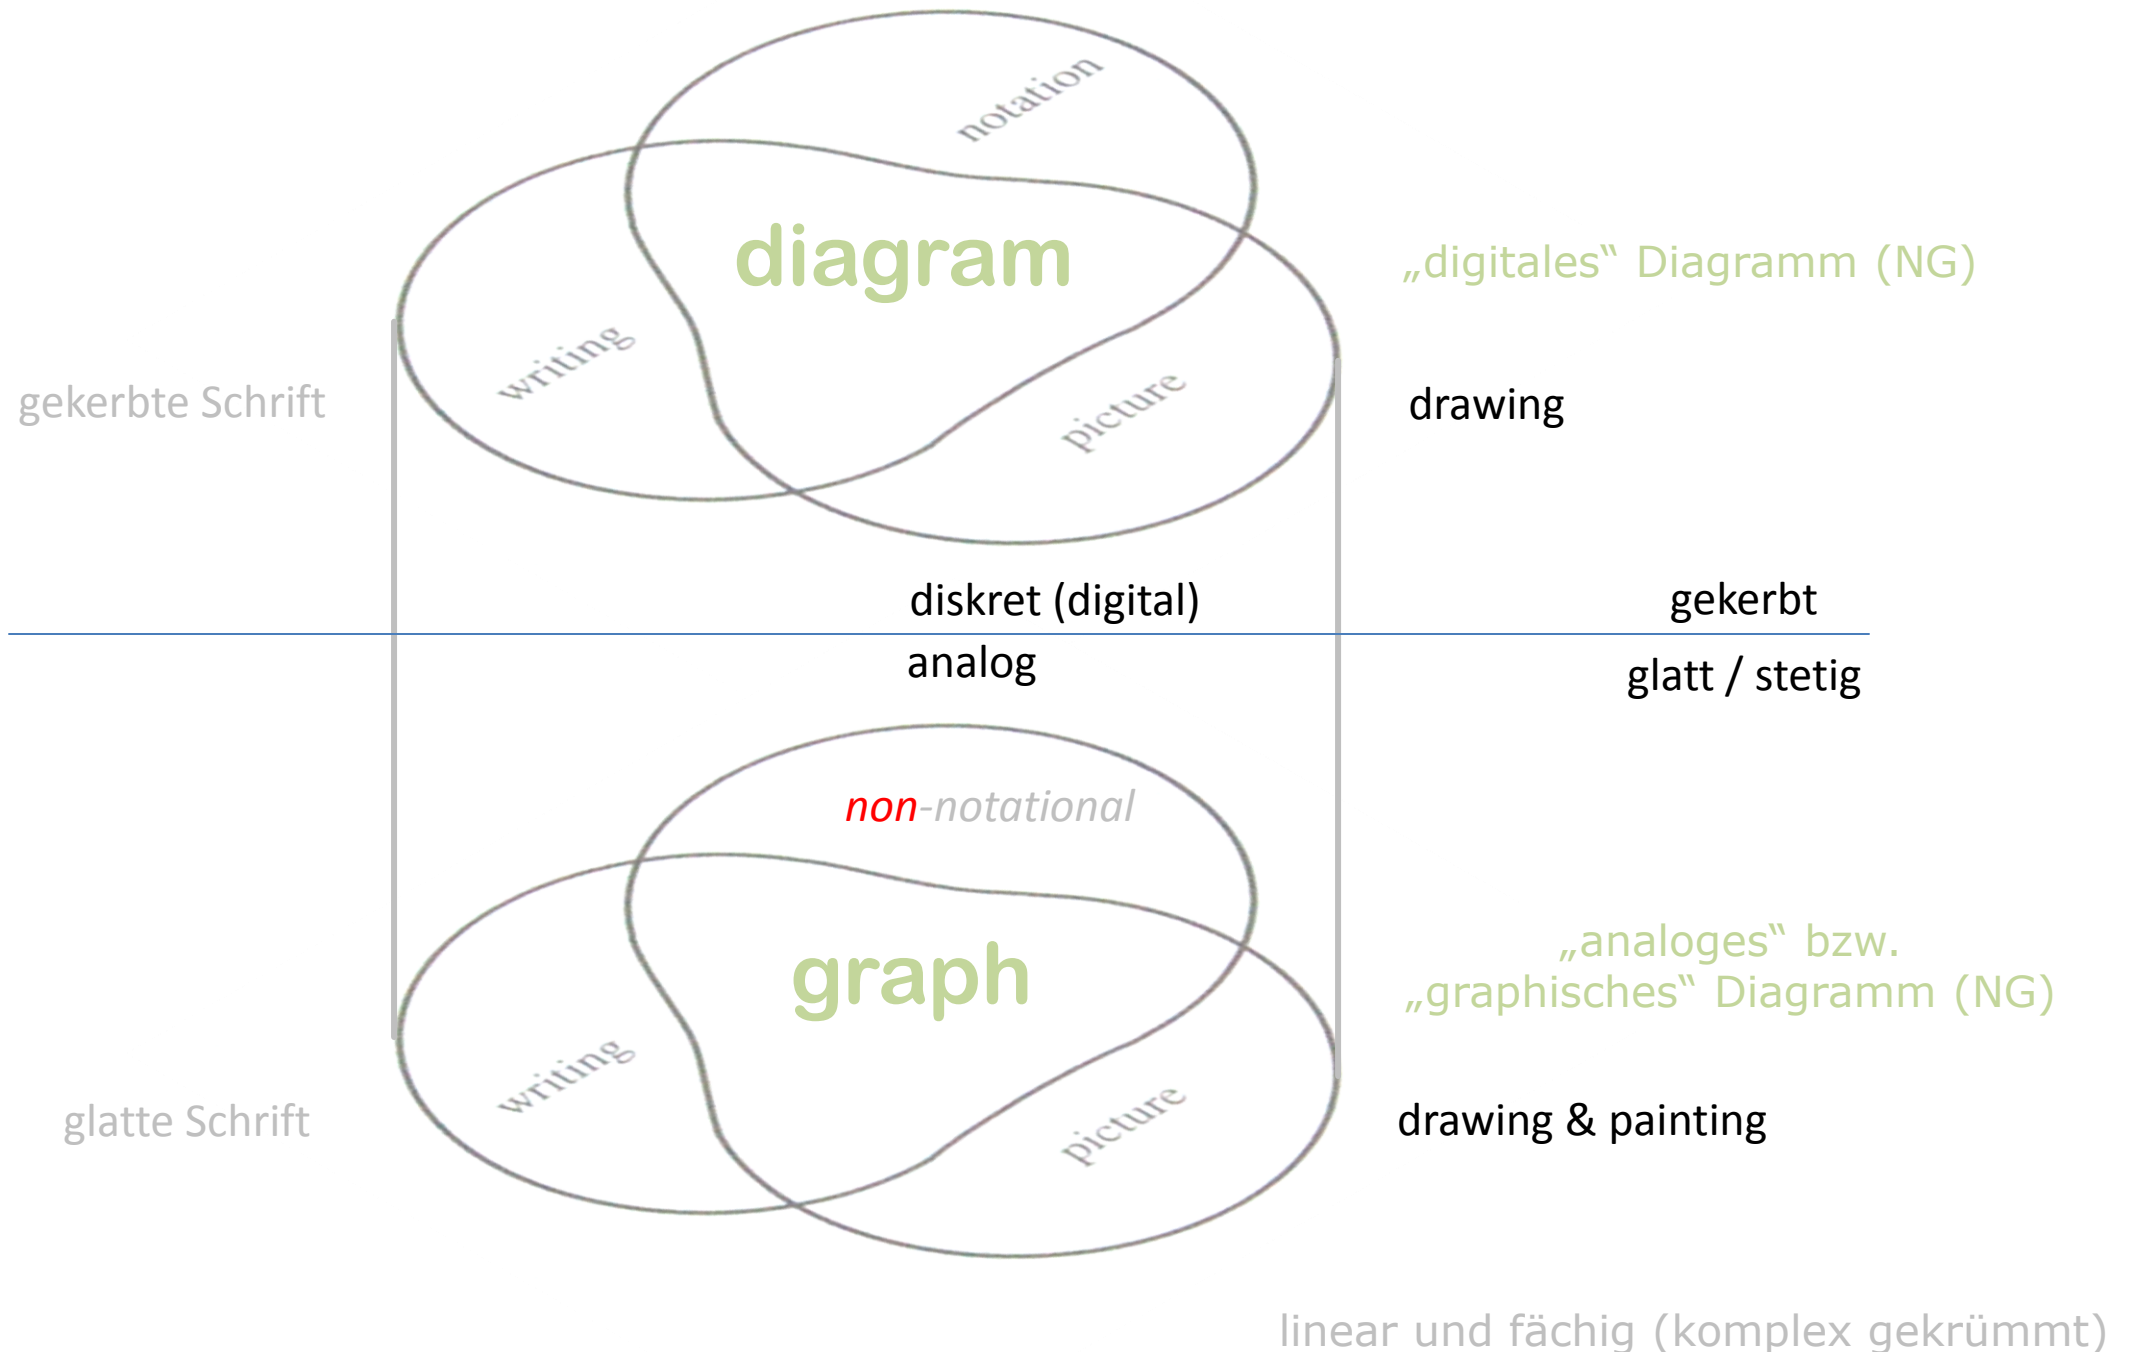

Der ikonische Status von Diagrammen ist prekär - prekärer als von Graphen. (D. Mersch)

Analoge Graphen werden von J. Elkins zwar besprochen, aber sein Buch enthält nur ein Bildbeispiel. Die Graphen sind auch in seiner Studie ein blinder Fleck.

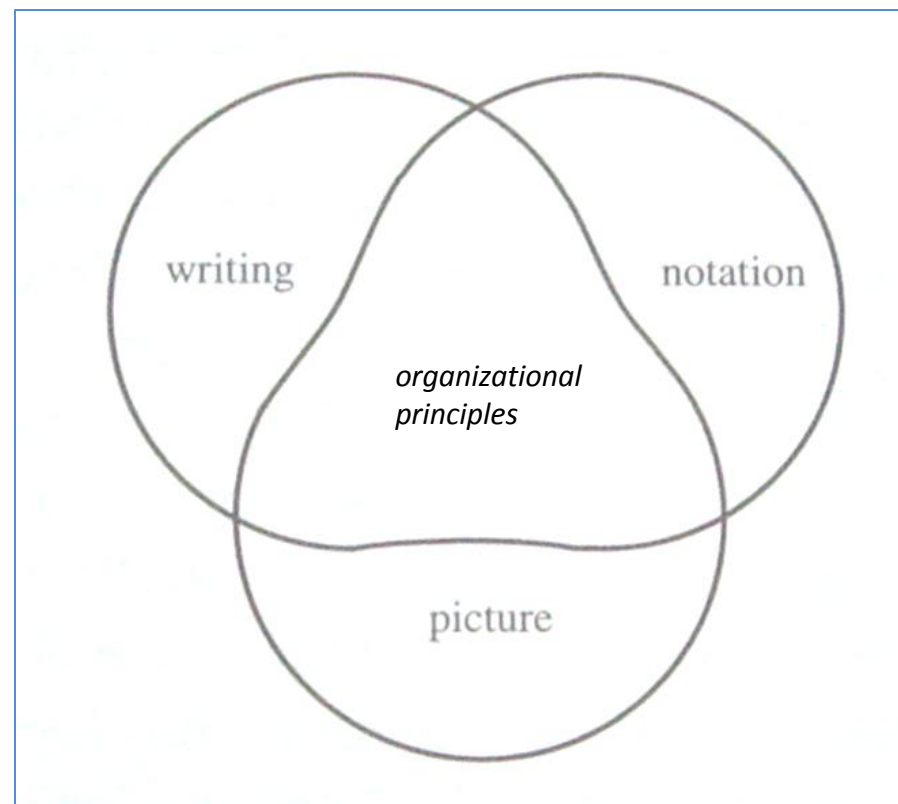

Elkins beruft sich bzgl. „notation“ explizit auf N. Goodman, schafft es aber nicht, die non-notational graphs' in sein System zu integrieren.
